LFM360 Self-adhesive PET film 155 µm

Product Description	White matt self-adhesive polyester film with silicon paper release liner for indoor use.

Physical Properties

Total thickness (µm)	150		Adhesion (N/25mm)	3.5–5.0	(A.F.E.R.A.)
Total weight (g/m²)	190		Adhesion after 24h (N/25mm)	10	(A.F.E.R.A)
Thickness film (µm)	50		Temperature range (°C)	5 - 80	
Weight paper liner (g/m²)	100				

Applications/features

POS, Signs
Labels, stickers
Good adhesion on flat lacquered surfaces
boards, plastics, glass, metal
Excellent image quality
Suited for Océ CrystalPoint® Technology

Available Widths (mm)

3"core	610	914

Storage Conditions

Temperature 10-20°C, Relative Humidity 50%
Repack opened rolls when not in use.

Print Conditions

Best results are obtained between 10-30°C and 40-70% RH.

Environment, Health & Safety

No Material Safety Data Sheet required.

Lamination Compatibility

Cold	Warm	Hot
yes	no	no

Cold: pressure sensitive
Warm: heat activated: 85°C - 95°C
Hot: heat activated: 105°C -130°C

Outdoor Use

This film is not suited for outdoor use.

Colour Profiles

Canon develops high-quality colour profiles for media / ink / printer / RIP combinations.

Printing guidelines

LFM360 is compatible with ColorWave printers with Océ CrystalPoint® technology. High quality print-modes are recommended for best results.

It is recommended to handle the media with cotton gloves Make sure that the media comes not into contact with grease, oil, silicon, and dirt to avoid printing defects. Insert media with care in the printers. Incorrect loading can cause skewing or creasing. Allow material to adapt to room conditions for 24 hours before printing. It is recommended to calibrate the printer before printing and to make a test print. Print results will vary for different printers.

Ink/toner restrictions and printer settings have to be set for specific printers to obtain the best results. Canon colour profiles include recommended ink restrictions and printer settings for Canon supported printers.

Application guidelines

Use a 100% felt squeegee to avoid scratching the print surface
